WAR MISCELLANY

The London *Traveller* thinks that the apparent indifference of the great powers of Europe to the increase of German power a matter for extreme surprise Every man who is familiar with European politics feels certain that, had France been successful in the field last August both England and Russia would have interfered to prevent her acquisition of the Rhine Provinces and yet the addition of those Provinces to France would not have made her half so dangerous to Europe as Germany at this time The *Traveller* thinks that an hour of Pitt or Palmerston would have staved the Prussian march after Sedan if not earlier

The *Golos* the Russian Government organ, has long been at intervals the vigorous assailant of Prussia In 1868 an attack appeared in that paper so remarkable as to be quoted all over Europe This was provoked by the construction by Prussia of the naval port of Keppons after the seizure of Kiel and the Bay of Jahde thus threatening to rival Russia in the Baltic The article ended in these ominous words "If France does not think proper to put a stop to Prussian impetuosity that Power will in a few years absorb the whole of Germany or, in other words, become the arbiter of Europe The author of this prediction has no reason to be ashamed of it now

It is not necessary to be an upholder of the dynasty of the Bonapartes in order to admire the stubborn constancy of Marshal Bazaine who hemmed in at Metz cut off from all communications with constantly diminishing forces and starvation in prospect, yet refuses to capitulate or to recognize the Republic "My Emperor placed me at this post, I shall hold it till I fall he is reported to have said to Jules Favre at their late interview The incident reminds one of the story of poor Casabianca at the Nile, The French army, though beaten, need not be ashamed of its heroes The names of McMahon Uhrich and Bazaine are not likely to be unhonored or forgotten and there is many another instance of obscurer devotion to show that France, however unfortunate, and perhaps deservedly so still has reason to be proud of her children

Marshal McMahon who has been residing at Pouru aux Bois near Bouillon at the chateau of the Mayor has sent to the *Organe* of Namur the following interesting note "Marshal McMahon was wounded on the 1st of September at 6 o'clock in the morning at the very commencement of the last battle in which he held no command It was by order of the Minister of War Comte de Palikao and of the Committee of Defence, that he executed the march which proved so fatal to the arms of France This is what infallibly happens when people take upon them to direct the movements of distant armies from the closet In these circumstances one can draw up a general plan but one cannot descend to details and this is what General Cousin de Montauban forgot Marshal McMahon's intentions were to fall back on Paris, after having reorganized the army so unfortunately undone at Sedan He was not permitted to accomplish his wise project As soon as the state of his health will permit Marshal McMahon will not fail to publish proofs that he cannot be considered responsible for the immense disaster at Sedan Between a victorious army and the frontier of a neutral nation there was no escape if an accident occurred.

What Germany Holds the French Emperor Responsible For

The following article is printed in conspicuous type in the latest issue of the *North German Correspondent* received in London Sept 17 It has created some surprise in several parts of Europe as we can gather from numerous articles in leading foreign journals, that King William after the victory of Sedan should have treated his Imperial prisoner with so much respect and delicacy, and assigned him as his residence one of the most beautiful spots in the Prussian dominions We have shown in our last number that the King did not say what the revolutionary Government in Paris found it their interest to attribute to him that he was making war solely on the Bonaparte dynasty The chronic passion of the French nation for enlarging their territory at the expense of their neighbors, and particularly at the cost of Germany is too well known to King William to allow him to lay the whole blame of the present war on the shoulders of Louis Napoleon Had France been a peace-loving country sincerely opposed to wrongful aggression, and valuing liberty and prosperity at home more highly than glory abroad she would have firmly refused her support to the Emperor when she saw him bent on a rupture with Germany instead of first greeting the declaration of war with enthusiastic joy and then abandoning her sovereign in the hour of their common adversity We have spoken of abandonment but is it so certain that the French people have really and irrevocably disowned the ruler in whom the country so lately expressed its unfaltering confidence? It is possible but the proofs are still wanting A republic can hardly ... it is true has been proclaimed in Paris amid the acclamations of a populace which will be equally ready to cry as loud for something else to morrow We are far from saying that France may not finally and heartily adopt the Republic of M Favre and his associates but till the entire country has spoken we can regard it as nothing better than a makeshift It is a matter of supreme indifference to Germany whether France calls herself an empire a monarchy or a republic ... find the one as good as the other but so long as the French people have not formally announced their will either by a general vote or the voice of their representatives in full assembly we must continue to regard Louis Napoleon as the sole legitimate ruler of France To the prisoner of Wilhelmshohe the King of Prussia still desires the respect ... which is due to an Emperor of the French and it may be that he is not altogether uninfluenced by a wish that the future historian should ... how William of Prussia treated ... with generosity ... his ...

Gen Schenck having in one of his speeches declared that Vallandigham had said that troops should not march from his district for the subjugation of the rebellion save over his dead body, Vallandigham pronounces Schenck a liar But the Cincinnati ... quotes from its own files to prove that the charge was first made in its own columns by the Hon Joseph H Barrett, late Commissioner of Pensions on the 19th of December 1860 and that Mr Vallandigham ventured no denial until seven months later Mr Barrett, in the Cincinnati ... which he now edits goes further and gives the names of the original witnesses who were present at the Ohio caucus in which Vallandigham made the speech and details all the circumstances Therefore it appears that Mr Vallandigham might better reserve for himself the ephithets being recently launched at Gen Schenck and seek rather to wipe out the memory of the past by better conduct for the future than by reckless and transparent denial

Conditions of the New Loan

Advices from Washington state that Secretary Boutwell has given instructions as to the conditions on which the new loan authorized by Congress for refunding the national debt will be issued. Under the act three classes of bonds are provided for, viz: The first bonds to the amount of $200 000 000 payable at the pleasure of the United States after ten years from the date of their issue and bearing interest payable semi annually in coin at the rate of five per cent per annum. The second bonds to the amount of $300 000 000 payable at the pleasure of the United States after fifteen years from the date of their issue and bearing interest payable semi annually in coin at the rate of four and a half per cent per annum. The third bonds to the amount of $1 000 000 000 payable at the pleasure of the United States after thirty years from the date of their issue and bearing interest payable semi annually in coin at the rate of four per cent per annum.

The Secretary gives notice that banks and bankers will be designated for the negotiation of the loan and paid a commission on the amounts negotiated by them. Subscribers to the loan will have preference in the following order, namely First--subscribers for equal amounts of the first and third classes of bonds. Second--subscribers for equal amounts of each class of bonds. Third--subscribers for five per cent bonds according to the per cent of premium offered or at par in the order of the date of subscribing. When a subscription is made the subscribers will be requested to deposit two per cent of the amount thereof, to be accounted for by the Government when the bonds are delivered and payment may be made either in coin or bonds of the United States known as five-twenty bonds at their par value. The coin received in payment will be applied to the redemption of the five-twenty bonds. The bonds will be registered or issued with coupons, as may be desired by the subscribers, and in denominations of fifty dollars, a hundred dollars, five hundred dollars, one thousand dollars, five thousand dollars, and ten thousand dollars. Interest will be payable in the United States at the office of the Treasurer, or any Assistant Treasurer or designated depository. The Government bonds of the several classes, and the interest thereon are exempt from the payment of all taxes, or dues of the United States as well as taxation in any form by or under State, municipal or local authority. After maturity the bonds last issued will be first redeemed by classes and numbers, as may be designated by the Secretary of the Treasury.

Railroad Connection with California

The Yreka *Union* in an article on railroad matters says the "entire influence of Oregon is now against the Pengra scheme and in favor of the road through on the Elliott survey. We are satisfied now that the Pengra road is a 'dead cock in the pit' at least till after the Sacramento and Wallamet valleys shall have been connected by a road through Shasta, Rogue River and Umpqua valleys. We may say to the *Union* that it is difficult just now to determine on what side the 'influence of Oregon' lies. The Legislature has so mixed matters that no one can tell. The Democratic caucus resolution pledges Kelly against the Pengra route, the joint resolution adopted by the two Houses instructs him to support it. And so our delegation in Congress is instructed to 'strenuously resist all Congressional aid for the Pengra route' and to use all due diligence to secure a 'land grant for the Pengra route.' This state of things may slightly confuse our California neighbors. We add here the following summary on railroad matters in which Oregon is interested taken from a California contemporary:

On the Central Pacific (C and O Branch) work is to be resumed immediately and the company are said to intend finishing the road through to Tehama by January, and to Red Bluff by March. The Yreka papers keep track of the surveying parties and stick to it that the Sacramento river route is the best. The *Journal* of Sept. 28th says that the surveyors are calculating on running the permanent survey on the west side of Mount Shasta, the east side being objectionable on account of the winter snow. They are also endeavoring to find a route from the head of Shasta valley out by Sheep Rock towards Butte creek. The *Union* of the same date says (by a correspondent) "the survey crosses the Sacramento river—and that appears to be the final crossing—about one mile above Sweet Briar Ranch from the west to the east side. Thence it runs up the river and crosses Soda creek near its mouth. In crossing Soda creek and the adjacent flats trestle work will have to be used for about a quarter of a mile. The survey runs thence across a low divide between Soda creek and the river, where a tunnel of some five or six hundred feet will have to be made. F Smith informs us that the surveying party had made the survey to the summit of the divide between the Sacramento and Shasta rivers. They had run the line from Soda springs to the summit, on a grade of 95 feet to the mile. The line passes through Fellows' meadow. From the summit it will be easy to descend into Shasta valley, and when once there, there will be no more serious engineering difficulties till the Siskiyou shall be reached." A Yreka telegram of the 4th inst says the surveyors are running a line down through Shasta valley. They proceeded down the west side of the river to a point four miles east of town where they crossed. It is said they will also run a line through town, down Yreka creek and through to Groat's ferry on the Klamath.

An apportionment for members of the Legislature, based on the census just taken, has been made in Illinois in conformity with law, so that the Legislature to be elected next month may fairly represent the people. The present Legislature of Oregon don't intend to make such an apportionment so that the people can be fairly and equally represented in the next Legislature. The people however can make it for themselves and we doubt not will make it.

It seems certain that Bazaine has at last succeeded in forcing his way out of Metz. He has been pounding vigorously on the German lines for several weeks and has finally broken through them. The French claimed some time ago when he was trying to fight his way out, that the city after his departure could still be defended successfully by the National Guard. We shall see before long.

A Montana paper announces in that Territory the greatest geyser in the world. It is situated near the headwaters of the Yellowstone and throws a stream of boiling water about fifty feet in the air. There are hundreds of other boiling fountains near and the region seems like a world of steam.

In Colorado agitation has again commenced for the organization of a State government. Several of the Territorial papers are warmly advocating it and contending that the Territory is now ripe for Statehood. Both political parties favor the measure.

A correspondent at Cassel writes that as regards the cost of all the French prisoners in Germany an exact account is kept and France will ultimately have to pay for their keep.

Eulogies of Gen Lee

Some journals in commenting on the death of Gen Lee are publishing eulogies on the life of the man describing him as a model gentleman, as a person of unquestionable purity of motives, and as a hero whose fame is to be in all future time a part of the American people. Some people have singular ideas of what constitutes a model gentleman and a noble man. A large majority of American citizens do not think fit to apply these terms to a man who was educated at the expense of the country who owed his position his acquirements in fact all he was to her favor and bounty but who in her hour of need deserted her and employed the knowledge influence and position which that country had given him in rebellious attempt to destroy her. We in common with this majority have no pride in the fame or infamy of the man who aimed a sword at the heart of our common mother. They who admire Lee may write eulogies on him for an age but they will never succeed in convincing the American people that he was anything else or better than a traitor who deserved the penalty prescribed by the laws for that crime. If it be said that Lee was a man of great talents the answer is that he was on that account a more dangerous man to the country and through his position and influence he led multitudes into the rebellion who otherwise would have kept aloof from it. Like other prominent rebels he remained at Washington as long as he dared at the opening of the war studying the weak points of the army and the country and acquiring all information which he could bring promptly into the rebel service. If there is anything noble about this the American people will never see it. If all that Gen Lee's eulogists say of him be just and true the American people can never justify themselves for fighting him down. The great crime of the war on this theory was not his but theirs. Had he remained true to the country the struggle in all probability would have ended two years sooner than it did and tens of thousands of devouring graves would yet go hungry for the dead with whom they have been appeased.

Over ten thousand colored voters have registered in the Fifth Maryland District comprising the counties nearest to Washington. This gives the Republicans a majority of some thousands and as it seems certain that they will poll the entire colored vote the election of Mr Gary the Republican candidate for Congress is regarded as certain. The Republicans throughout the State seem united and active and will undoubtedly make a creditable showing. The colored registry in the Allegheny District gives the Republicans fully two thousand majority there which will be a gain of two members in the State.

The spirit of the French people appears to be improving although the dispatches do not indicate that they have gained any important successes. But certainly they are resolute and exhibit a heroism in adversity that may almost atone for their arrogance in the days of their supposed strength and power.

The population of Massachusetts is 1 448 055, against 1 231,066 in 1860. This, considering the limited area of the State and the density of the State, is an astonishing gain.

The Land Draining Job in Union County.

Cove Oregon October 10 1870

Editor Oregonian

It is indeed a blessed thing to have every department of the State Democratic. We of Eastern Oregon can appreciate the blessing with simon pure ecstatic genuineness. You know we are enjoying much representation according to our population, but you shouldn't object, for if *some* Democracy is *good*, *more* Democracy is *goodest*. To be sure taxes are only two and one-half per cent, and to be surer, our county is several thousand dollars in debt. But what of that? It is short work when "every department of State is Democratic" to "equitably adjust" all indebtedness so we never grumble.

But to return. Our county is so formed that several thousand acres lying in the centre of it are subject to overflow in the spring from Grand Ronde river and its tributaries which renders it, I will say, the best piece of natural hay land on this coast. Thousands and thousands of tons of hay can be cut every year, indeed during every summer following a hard winter the overflow is so immense that half the grass is not cut. This is one of the natural advantages which we possess as a stock raising country that cannot be found every day and our citizens moreover are not dead to the fact. The land however, is as white and light as ashes and almost as productive of cereals if used for that purpose as ashes. Or to pursue the comparison almost as barren as one of Kelly's pledges.

Now in view of these facts what could our Representatives have been thinking of two years ago, when they asked for and of course obtained an appropriation of $15 000 to be used for the purpose of draining our hay land? Occasionally when the snow on the mountains is light the back water is insufficient to wet the ground and consequently we have no hay. Now, if this appropriation had been used for placing *obstacles* in the river to be used for throwing the water out of its banks during such season it would have been sensible. Or if when the $15 000 was found to be insufficient, the whole thing had been crippled, Union county could not have complained but to ask for an additional appropriation to complete the humbug is simply capping the climax of irrational absurdity.

But let's not grumble. The happy era has come. Every department of State is Democratic. That's all.

A VOICE FROM UNION COUNTY

POLITICAL NOTES

The *Freeman's Journal*, the leading Catholic journal in New York city nominates Gen Mc Mahon for Congress as a Catholic on the ground that the Fourth New York District is largely Catholic and demands a Catholic representative.

The Maine election clears up with the same substantial Republican victory as in former years. In the House there are 117 Republicans to 34 Democrats and in the Senate 28 Republicans to 3 Democrats, a majority that leaves the Democracy nothing to hope for except from the blunders of their enemies and this is a remote prospect. The United States Senatorship question has alone lifted the election out of the realm of absolute dullness.

Tammany is rapidly getting ready for the New York elections. Within the past six weeks over 1 300 men have been added to the City Hall builders not one half of whom ever work while recruits from the shoulder hitting classes to the number of fifty daily are being hired at city expense, ostensibly to work for the public at $3 per day and unlimited whisky but they understand that after the election their occupation will be gone.

Of the fight of Democratic factions in New York City a correspondent writes: I have no faith whatever that the present animosity between the two factions will continue any longer than the day previous to the election. When the polls are opened they will I am sure be found voting on the same side and for the same candidates. Democratic quarrels are often violent but the quarrels invariably harmonize at the ballot box. In New York of course Tammany has the upper hand and wherever it finds a faction strong enough to be formidable, it buys off the leaders with certain lucrative offices, and the faction is extinct until other prominent Democrats cheated of what they regard their share of the spoil, form a new faction, and demand a less unequal division.

OREGON

A Walla Walla paper says that Oregon is increasing but slowly in population, as people here claimed 90 000 population in 1858. It was not the people but the Democratic politicians who wanted the State admitted so that they could get office, who put our population at that figure in 1858.

The Presbytery of Oregon and Washington Territory met on the 12th inst in the Presbyterian Church at Olympia. The opening discourse was preached by Rev G W Sloan of Steilacoom. T J Weekes was licensed to preach. But a small number of persons were present and little business was done.

The *Statesman* has this notable item: The first lady who ever rode into Salem by railroad accomplished that distinction on Wednesday and in an appropriate manner. The first lady to enter Salem by railroad was Miss Lizzie Bise who did not come in behind the locomotive or on the cars but sitting comfortably in a chair on the cow catcher with His Honor Judge Deady of the U S District Court on the right and Hon S F Chadwick Secretary of State on the left. The group ought to have been photographed to commemorate the important occasion.

THE TERRITORIES

R R Goodwin formerly of Walla Walla was killed a few days ago at Boise City by a heavy rock which rolled over him.

The Denver *News* has a report of a fight between nine whites and eight Arapahoes in Middle Park, Colorado. The party were chased to their cabin after a severe fight with the Indians, in which they claim that five or six Indians were killed. The cabin was surrounded during the night but the Indians left in the morning.

A Walla Walla paper says: The sporting men of Boise are taking measures to introduce California quails and perpetuate the stock. Some years since Colonel Ruckel had a number of these quails brought up from California and turned loose at the Cascades where they rapidly increased and we believe have become permanently acclimated.

Farragut

INTERESTING REMINISCENCE OF THE OLD ADMIRAL'S LIFE

In the course of an article on the late Admiral contributed to the *Christian Union* the Rev Dr Joseph P Thompson says

"One could not be long in company with Admiral Farragut without being charmed by his simplicity. At seventy the hero of recent naval warfare the head of the navy of his country the first in an office created expressly for his promotion the honored and flattered guest of the civilized world, he yet retained the freshness and simplicity of character with which he entered the service more than fifty years ago. He had the affection of a boy for his tutor and the companion of his early voyages—Mr Charles Folsom, of Cambridge, and the enthusiasm of a boy for the friends, places and incidents that had given zest to his experience as a midshipman.

Hearing him speak of a visit to the ruins of Carthage, I called at his house with a copy of Davis' work and it was refreshing to see the gush of delight with which he identified places and monuments that he had not seen for half a century and to hear his animated story of his own adventures. By way of reciprocity he then gave his attention to my juvenile companion and as the Admiral brought out for his entertainment the choice stores of his portfolios views of foreign travel and gifts of friends abroad he seemed even more the boy than the youth who drank in all so eagerly but could not forget in whose presence he was.

There was not in him one trace of vanity of that egotism which forever magnifies itself which keeps self always first in its own thought and exacts the homage of all around. And yet the Admiral was thoroughly appreciative of the good will of his countrymen and as sensitive as a child to their marks of approbation. He was really charming to look upon as he received the applause of a dinner company his manly face beaming with pleasure his tongue confused with the attempt to speak his lips answering by smiles for words yet with no trick or taint of ostentation—just a hearty simple sympathetic pleasure with himself and everybody else because he had somehow done something that pleased other people. Once at a public dinner, as he saw the toast To our Navy, bearing down upon him like a saucy corvette and pouring broadsides of compliments, he whispered, 'Now in a minute they'll set me up in the main top again and then I shall have to speak. What shall I say? I'd rather go into action.' Presently the chairman reached the culminating point of his own eloquence, with 'The hero of Mobile lashing himself to the main top and sailing into the belching flames &c &c' and amid thunders of applause the Admiral rose and bowed and beamed forth his contagious smiles till the whole company felt as jolly as a mess on furlough then said a few simple honest words about the navy his officers and his men and looked so happy as he received the vociferous greetings of the assembly that the impression upon all was that of a brave, simple true man whose heart was as open as it was brave.

When he sat down he said to me 'I cannot understand why they make so much of my going up into the main top. It was nothing special that I did at Mobile and I was not lashed there at all. When going into action or in any time of danger I always went up there because I felt it my duty to be where I could overlook everything in person and be seen by all the men and set them an example of sharing their risks.'

At the same dinner taking in his hand a glass of wine he said to me 'The wine goes round pretty freely to night. I take a glass at my dinner but when I am on duty and especially when going into action I never allow myself to take a drop of any kind of stimulant. For when my country has trusted me with grave responsibilities, I could not bear the thought of doing anything that might lead me to distrust myself or might shake the confidence of officers and men in my command. To do my duty I must respect myself.'

Upon another occasion when the talk turned upon iron and wooden ships of war the Admiral said he never could bear the thought of shutting the men up in a monitor. 'It took away their spirit to feel that they were cooped up in a coffin. A sailor loves a free fight. Then as to wood or iron it doesn't matter. It is the men that make the ship. Only give me men that I know and they know me and I would as lief go into battle in wood as I would in iron.' This showed a knowledge both of human nature and of the elements of courage."

AN AMERICAN GENERAL ON THE FRENCH CHARACTER.—The London *Daily News* of Sept 20 prints the following extract from a letter of Gen Sheridan of the United States Army at present at the head quarters of the King of Prussia:

Rheims France Sept 8 1870.

I have no time now to give you a detailed account of my affairs since I joined it. Suffice it to say that the French have been beaten in every engagement from Weissenburg up to the surrender of the Emperor Napoleon at Sedan and there seems to be little left except it be the siege of Paris and that will [illegible] France. It is possible that the French troops have not done as well as I think they might have done on one or two occasions which I witnessed from the fact that the poor fellows found themselves so badly handled by their commanders that they could see no equivalent to be obtained by the sacrifice of their lives. All men like to have an equivalent for their labor and especially is it so with the soldier who wants success where many lives are to be sacrificed. The French generalship put this out of question in every battle which I have witnessed. Everybody here has been very kind to me.

TUESDAY EVENING [illegible] 1870

CITY.

[illegible] several of the French residents of Portland have joined together and opened [illegible] the same [illegible] The merchants [illegible] Rand arrested [illegible] was discharged yesterday [illegible] Marion county [illegible] had not yet been brought to [illegible] Her Captain works confident of success [illegible] mystery [illegible]

Capt Fisher and Mr [illegible] rescued a man [illegible] evening who had fallen [illegible] in a state of [illegible] We think he was one of those [illegible] original package only a few hours [illegible]

On Sunday last United States Marshal Young arrested two men at Salem one a deserter from [illegible] and the other a deserter from [illegible] and brought them down to Portland. They were examined before U S Commissioner Wilcox and remanded to jail to await the orders of the officers of their respective vessels.

PARLOR MAGAZINES.—A writer styles kerosene lamps parlor magazines on account of the frequency and the fatal facility of their explosions and were not the subject too serious for wit, we might be disposed to laugh at the aptness of the name. Hardly a day passes without its accompaniment of kerosene slaughters as these accidents are expressly called. The loss of life and property is fearfully great so that a scientific paper has said kerosene explosions send their victims to the grave daily, and destroy millions of property annually. Is it not almost incredible that the sole cause of this frightful slaughter is the use of inferior oil? The authority just quoted tells us a lamp filled with really good kerosene may be broken and yet the flames will not communicate to the oil that is spilt. There is but one proper remedy for these kerosene catastrophes and that is the passage of laws in every State making it a criminal offense to sell oil of an inferior quality. A heavy fine or a long imprisonment should be made to hang over dealers who traffic in explosive oils of this sort. Such a movement has already been begun in the Legislatures of some States. It ought to be extended to all and we hope the present session at Salem will not adjourn until it takes some action in the matter.

A RELIC.—Yesterday the Oregon Iron Works purchased one of the boiler heads with a part of the shell of the boiler of the old steamer *Gazelle*, which was blown up at the wharf in Canemah fourteen years ago. The sight of this relic of that terrible event causes a shudder. It was found on the farm of Capt. Cy Smith, on the opposite side of the river nearly a mile and a half from the scene of the disaster only a short time ago. It is apparently as bright as though almost new, and this remarkable state of preservation is truly a wonder. The *Gazelle* was a steamer built by the Wallamet Falls Manufacturing Company and the casualty which this discovery brings to mind is well recollected by every citizen of Oregon here at that time. This fragment of the wreck weighs about one hundred pounds. The distance to which it was thrown gives some idea of the force of the explosion, which it was said was a singular if not wanton piece of carelessness on the part of the engineer.

GAS EXPLOSION.—Last evening, Mr W H McMullen, engineer of Protection Fire Company's steamer, had his eyebrows, eye-winkers, and face badly burned by an explosion of gas, when he was lighting the slow fire to place under the boiler. It seems that for the purpose of keeping the water in the boiler tepid, a small jet of gas is allowed to burn in the furnace, in a lamp made for the purpose. This lamp had been placed in the boiler and the gas was turned on, but not lighted. Mr McMullen lighted it, and was in the act of replacing it when the explosion took place, from the gas which filled the furnace. His face and neck will be very apt to be sore for some time.

JUSTICE COURT.—A somewhat complicated case was tried yesterday before Justice A. M. Snyder. It seems that not long since a Walla Walla merchant wanted to buy a certain gun, for sale by Mr Wm Beck. Mr B being unacquainted with his customer refused to sell on time. The Walla Walla merchant brought Mr Paul Richter as surety. Mr Beck then disposed of the article, and charged it on account to the surety. The buyer has since failed and taken the benefit of the Bankrupt Act and the suit was brought against his surety to compel payment. Judgment was rendered for plaintiff. Cronin for Beck. Chas Upton for Richter.

PRESBYTERIAN SYNOD.—Dr Lindsley of the Presbyterian Church of this city is at San Francisco attending the Presbyterian Synod. We [illegible] his name in the published proceedings. The Synod has declared by resolution "That in the immigration of Chinese to this country we recognize the providence of God. We interpret this as one of the means by which China is to be evangelized, etc. Rev Dr Scudder and others made remarks upon the subject of the Chinese on the coast. The *Occident*, the official paper of the church is to be supported by taxing each member of the church fifty cents. The next meeting of the Synod is to be at Oakland on the first Tuesday in October 1871.

LOCOMOTIVE WORK.—The locomotive *James B Stephens* at one time since she came on to the iron rails in Oregon, was run for 63 [illegible] days and nights without allowing her fires to die out. An engineer and fireman would come on in the morning at six o'clock and another in the evening at six o'clock and thus work went along. During this time she was never off the track, nor damaged by injury of any kind. This is certainly some recommendation for the employees of the company.

A HINT.—Certain Democrats in Portland who are opposed to the Oro Fino clique in whose interest the changes in the city charter are being made have worked hard against the proposed changes but without results. One of them asked the Republican member from this county could not do something. No he can do nothing was the reply [illegible] got no money which may be taken as a gentle hint of the way things are done at the Capitol.

BONDS FILED.—Mr James Lotan filed his bond of $10 000 with Messrs. David Simpson, C [illegible] and A G Walling as sureties for the faithful performance of his duties as U S Inspector of steam boilers for the District of Oregon. Mr Lotan is an experienced boiler maker and he will be very likely to give uniform satisfaction in this office. On Thursday he will leave for a tour of inspection on the Umpqua and Yaquina regions.

FIRST PRIZE.—The 2nd Infantry Band which went to Salem to compete for the first prize for bands—and which by the way they obtained—all speak in high terms of praise for the kind treatment and hospitality with which they met by the management. Should the band remain in Oregon another year they will most assuredly attend the next State Fair.

FESTIVAL.—One of those very pleasant evening festivals which the ladies of the Baptist Church of this city give, we understand the management will take place at the church corner of Alder and Fourth streets this evening. The proceeds will go to defraying the indebtedness of the church. We hope to hear a good report as the reward for their efforts.

WHEEL OFF.—One of the large baggage wagons of the Overland [illegible] Company ran a wheel off in front of the [illegible] office last evening. No damage resulted but the event drew a crowd of men and boys [illegible] thought it was a performance [illegible] going to show how the big [illegible] grounds.

ELECTION OF OFFICERS.—At a general meeting of Congregation Ahavai Sholom held on Sunday the 16th the following officers were elected for the ensuing year: [illegible] Goodman President, I. [illegible] Vice President; [illegible] Treasurer; J Bettman Secretary; [illegible] Goldstein, M Franklin and R Prag Trustees.

GOING TO ENGLAND.—Mr J [illegible] President of the Oregon Iron Works contemplates a visit to England this winter if he can possibly arrange his business here so as to leave it. The object of his visit is to look after a valuable interest which has been left to him in Hereford.

REPORTS.

The Committee on Streets and Public Property reported favorable to the change of grade on North Tenth street at the intersection of F and G streets, and submitted an ordinance reducing the grade favorably with the petition of J. N. Perlot and others. The report was placed on file, and the ordinance passed in the regular order of business.

The quarterly report of the City Treasurer, showing a balance in the Treasury of $18,606 56, September 30th, 1870, was received, read and referred to the Committee on Ways and Means.

Report of the Chief Engineer of the Fire Department, advising the purchase of certain supplies, was received and referred, with power to make purchases.

Report of the City Recorder, showing the workings of his office for the month of September, was received and placed on file.

Report of same nature, from the City Marshal, was also received and placed on file.

WARRANTS ORDERED.

Warrants were ordered in favor of the following parties having claims against the city: Joseph Sloan, $288 90; gas for street lamps, $440; C. H. Myers, $39 50; E. Milwain, $2 50; A. G. Walling, $12; gas for Council Room, month of September, $13 90; E Dougherty, $1; Walter Bros., $6 75; J. M. Caywood, $11 50; John P. Farmer, $26 75; H. L. Pittock, $35 39; Philip Saunders, $24, acct. of dogs; Philip Saunders, board of prisoners, $96; pay-roll, September, $152; H. J. Stephenson, City Surveyor, and assistants, $365 87.

PAY FOR STREET IMPROVEMENTS.

Warrants were ordered from the various appropriations in payment of contractors on street work, as follows: H. Ralston, Third and South Third Street Fund, $44 34; W. H. Butts, same fund, $5 50; Perry G. Baker, same fund, $331 61.

BUILDING FUND.

Certificates were filed showing that Mr. W. H. Brackett was entitled to the sum of $988 50 on contract for building the new engine house for Protection Company No. 4, and a warrant was ordered in payment of $300 on the same, the balance to remain, pending an appropriation.

ORDINANCES PASSED.

An ordinance, providing for the grading of First and South First streets from the south line of Madison to the north line of Lincoln streets, to be completed December 1st, 1870.

An ordinance, providing for the grading of Seventh street, between Clay and the north line of Caruthers' land claim, to be completed January 1st, 1870.

An ordinance, changing the grade of First street, from 90 feet to 95 feet above the base of grades, at the intersection of Hall street.

An ordinance making an appropriation of $122 70, for the pay of special deputy City Marshals, to September 10th, 1870.

An ordinance declaring the probable cost of grading Sixth street, between Clay street and the north line of the Caruthers' land claim, to be $1,633 14, assessing the same, directing its entry, etc. And also an ordinance appropriating the same amount for such purposes.

An ordinance declaring the probable cost of grading College street, from the west line of Third street to the centre of Seventh street, to be $367 56. And also an ordinance appropriating that sum for such purposes.

An ordinance making an approprion of $3,500 for the pay of contractors on the building of Engine House No. 4.

An ordinance to establish the salary of the Street Commissioner at $1,200 per year, payable monthly, after January 1st, 1870, was objected to after the third reading, and some discussion arose on the propriety and impropriety of allowing $100 per month from January 1st, 1870, when on motion of Mr. Hill, the vote last taken was reconsidered. The ordinance was then so amended as to make it applicable from July 1st, 1870, after which it was read a third time, put upon its final passage, and passed by seven affirmative votes.

ORDINANCES READ SECOND TIME.

An ordinance to suppress bawdy houses. Referred to the Judiciary Committee.

An ordinance making an appropriation of $465 for the general fund, to cover deficiencies of the fiscal year.

RESOLUTIONS ADOPTED.

Apppointing Hon. E. D. Shattuck, H. C. Leonard and Lloyd Brooke, Viewers to view and report damages and benefits likely to accrue from the proposed extension of Sixth street.

Authorizing the Chief Engineer of the Fire Department to purchase wrenches etc., for Company No. 3, and a new hosetower rope for Company No. 1.

Ordering that the Street Commissioner remove forthwith, all fences and other obstacles in A street.

On motion, the Council adjourned until the regular meeting, to-morrow evening.

ORIFLAMME ARRIVED.—The North Pacific Transportation Company's steamer *Oriflamme*, Capt. Wm. Metzger, arrived from San Francisco at 10:30 P. M. yesterday, bringing the following passengers: Judge Wm Loughridge, A Hine, Mrs Couch and daughter, Mrs G W Flanders, two children and nurse, Mrs R Lubelski and two children, Mrs M Weidler, and two children, Mrs McConnel and child, Mrs Warbass and child, John Hurey, H Anderson, A W Shaw and family, W Crockett, Miss N Huntington, Miss M Edwards, M Blinn, and family, W W Dougherty, Vincent S Lawles Rev W R Josselyn and family, Miss A Hammond, Mrs James Steele, Col S Stevens, Henry Myers, A B Holyoke, E Cabalin, L M Starr, E Dusenbury, G H Jones and family, Miss E Hathaway, Jas W Troup, Rev P Pinkerton and wife, O C Shorey and wife, D M Brown, Francis Turner, Lieut W F Rice, A Short and wife, G Kellogg and wife, J G Flowerdew, E Allen, Miss J Koran, Mrs L Stetson and daughter, J J Young, E Jessup, Wm Watson, E Conner and wife.

JAIL FULL.—We have a poor Police, and all that, as is urged by the friends of the late proposed amendment to our City Charter; but the Jail was never so filled with culprits as now. Thirty-two prisoners were confined in the County Jail, alone, last evening. The number is increasing rapidly.

WILL INDIANS WORK?—This is a question which has been repeatedly asked in Oregon. We answer: Yes; and so will *Klootchmen*. Let the curious observe them at work to-day, women splitting wood, and Indians piling it up, at the corner of Fourth and Alder streets.

RING FOUND.—The gold ring for which a Chinaman was arrested on suspicion of having stolen, was yesterday found by Mr. Jacoby's son where it had been lost. In making cases like this, persons ought to be pretty sure of their evidence.

DEAD DUCKS.—City Surveyor Stevenson left on our table last evening a brace of fine, fat, genuine "dead ducks." They came in his way as he was surveying down along the slough early in the morning, and he "leveled" them.

WALLAPUS.—This great curiosity is on exhibition in this city. It has bristles like a hog, hoofs like an ox, horns three feet long, turning over the back, and is unlike any other animal in the world. See advertisement.

WIZARD COMING.—One of the most famous slight of hand performers in America, Mons. Carl Bosco, will shortly give a series of entertainments in this city.

NO BIDDERS.—There being no bidders to purchase the stock of stoves, etc., which were to have been sold yesterday, the sale was postponed.

THE MONUMENTS OF 1870.

LIST OF NEW BUILDINGS CONTINUED.

In the Saturday issue of this paper we gave a list of new brick blocks, being erected in this city the present season for business purposes only, which, divided into stores, give room for 15 places of business on first floors 25 by from 80 to 130 feet each, depth. The list may be thus recapitulated:

W. H. Corbett, two buildings	$40,000
Lewis & Flanders four buildings	30,000
Dr. R. Glisan four buildings	32,000
Capt A. P. Ankeny, eight buildings	50,000
Total, eighteen buildings	$152,000

We continue the enumeration to day, beginning with

THE OREGON STEAM NAVIGATION CO'S BLOCK.

Six stores in this block of 90 feet by 200, on Front street, between Pine and Oak streets, were built two stories high, with cellars, in the year 1865. The present building, 40 feet by 90, fills the space in the center of the block, and will complete the original plan. This building is being run up one story above those erected in 1865. Piper architect, Richardson builder. The foundation walls are of stone laid in cement, three feet in thickness at the base, commenced on solid gravel. The cellar is ten feet in the clear. The first story is all in one room, 18 feet ceiling. In the centre of the room seven iron columns are erected, supporting the floors above. The second story is sixteen feet in the clear; and the third story fourteen feet. Making the building, with fire walls added, 52 feet above the sidewalk. The front elevation is neatly ornamented with iron work, and the entire row forms a block of very imposing and business-like buildings, valued at not less than $100,000. The first story and half of the basement will be occupied by Messrs. Leveridge, Wadhams & Co., successors to R. G. Sneath, Esq., and the remaining portion will be used by the Military Department of the Columbia.

PROTECTION COMPANY'S ENGINE HOUSE.

This is a single building of brick, towering above the wooden structures, on block 9, corner of First and Jefferson streets. It is two stories high, 26 by 70 feet in size, and was built for the City of Portland on contract with Mr. W. H. Brackett,—W. W. Piper, architect—and was completed and turned over to the committee of the Council, at a cost of nearly $10,000. The room for the steam engine belonging to the company, is 25 by 53 feet in size, 18 feet ceiling. In the rear of this is the committee room, 15 by 17 feet. The stairway leading to the second story, is a half circle. The second story is divided into several apartments, as follows; Meeting room, 25 by 40 feet; library, 15 feet square, connecting by sliding doors with a sleeping room, 12 by 15; on the opposite side of the hall from these latter rooms is a bath room, closet, etc. The outside appearance of the building is massive but fine, as it is finished up with iron and ornamental work, representing emblems of the Fire Department, and letters denoting the company, "Protection Engine Co. No. 4," the date of the organization and year of the erection. The inside finish is of the finest kind of plaster. A heavy center piece, four feet by six feet in diameter, ornaments the ceiling in the waiting room, and the cornice is heavy ornamental work of the same materials. The walls of the engine room are wainscoat for a depth proportionate to good taste. In the rear of the main building the hose tower and belfry, eight feet square, is built up above the fire walls of the house, and in this is suspended the bell, weighing 600 pounds. Water and gas have been introduced. The company propose to occupy their new quarters sometime during the present month, and members are now engaged in fitting up the rooms. They will put into the building about $2,000 worth of furniture.

THE NEW CONGREGATIONAL CHURCH.

This is a wooden structure in process of erection, on the corner of Jefferson and Second street Messrs. Brackett & Clark builders. The main building will cover a space of 78 feet 10 inches by 46 feet 10 inches. The basement, 12 feet ceiling, is of brick, hollow walls, the audience room will have 20 feet ceiling. Vestibule, 30 feet by 14, with a staircase leading right and left. The audience room will be seated with pews finished in black walnut. The spire will be 150 feet high from the base. The outside finish will be plain ceiled, with ornamented buttresses at each corner of the front, carried above the roof, and from between each corner, stopping below the cornice. The rooms will be warmed by a hot air furnace which is already on the grounds. This structure when completed will cost not far from $20,000.

BISHOP SCOTT GRAMMAR SCHOOL.

This building, erected on a tract of five acres of land donated for the purpose by Captain Flanders, situated on B street, corner of Fourteenth street, has been occupied for several weeks. The school is under the direction of Bishop Morris, of the Episcopal Church, and it is a most fitting monument to the memory of his predecessor, Bishop Scott. The corner stone of the edifice was laid with appropriate ceremony less than three months ago; yet we find a handsome structure, of 30 by 90 feet, with a basement, two stories and attic completed, which is one wing, or half of the building proposed to be built. The hight of the building may be judged from the dimensions of the ceilings, which are as follows: Basement, 9 feet; 1st story, 14 feet; 2d story, 12 feet; 3d story, 10 feet. The outside finish is of the modern style, with the Mansard roof, and from its elevated situation is seen from all parts of the city. When the buildings are completed according to the original designs, and the grounds are laid out in a corresponding manner, the institution will be delightfully pleasing. The builder is Mr. James Cummings.

TAYLOR STREET M. E. CHURCH.

It can hardly be presumed that the above structure can be rated as among the monuments of 1870, although it was not completed until this year. It has also been described in these columns, so we shall briefly epitomize its extent for the purposes of this article. The building was dedicated on Sunday, September 4th, 1870, by Bishop Ames. The structure is of brick, located on the corner of Taylor and Third streets, fronting on Third, the first broad street in the city. It is sixty-seven feet front across the vestibule, 107 feet deep from face to face of the walls, including towers and recess in the rear. The basement is large, commodious, well lighted, and is twelve feet high in the clear. The audience room is fifty-two feet wide, and eighty-four feet long including the recess, and is thirty six feet high from the floor to the arched ceiling. There are two towers, one sixty-eight feet in height, the other ninety-three feet, the buttresses completed by four finials, and from the crown of which the spire rises eighty-three feet. The pinnacle of the spire is formed by a finial surmounted by a globe, which is 176 feet from the sidewalk. All the openings in the audience room are arched. The front window is thirty five feet high and twenty-two feet wide. Ground glass, with a small and exceedingly chaste figure, has been used for the windows, except the ornamental portions, which are colored. The cost of the edifice was about $36,000. Strangers remark that it is as fine a church structure as there is on the Pacific coast, belonging to any Protestant denomination.

ODD FELLOWS TEMPLE

Was built in 1869, but not completed until this year. It is a three story brick building, 75 by 80 feet, situated corner of Alder and First streets, and as now completed and furnished cost the association $60,000.

THE STEAMSHIP "CONTINENTAL."

TO THE LOCAL EDITOR OF THE OREGONIAN: You ask me my opinion as to the truth of the rumor that the recently lost steamship *Continental*, of the N. P. T. Co., "was rotten and unseaworthy." The rumor is without foundation, and the statement utterly false. I speak from personal knowledge. A few days before Mr. Holladay purchased her, I employed three competent and trustworthy ship carpenters to make an examination of her throughout, each on a different day, and they all reported that she was not only sound, but as thoroughly and strongly built as any steamship in New York harbor at the time. As she was built of seasoned Delaware oak it is simply impossible that she should have decayed so soon.

Very truly, yours, A. S. MERCER.
Portland, Oct. 16, 1870.

THE OREGON LEGISLATURE.

Sixth Biennial Session

SENATE—Morning Session

SALEM, Monday Oct 17, 1870.

At 10 A. M. the Senate was called to order by Mr. Burch, the President, Mr. Fay, being absent.

On motion of Mr Burch, Mr. Cochran, of Lane, was elected President *pro tem*

Absent—Messrs. Brown, (of Marion), Hendershott, Holsclaw, Mosher, Thompson and the President.

The reading of the Journal was dispensed with.

Mr. Mosher rose to an explanation. He had seen in the published reports his name recorded as having voted on the Supreme Court Bill. He did not vote, and was not present in the Senate when the vote was taken.

SPECIAL ORDER TAKEN UP

S. B. 31, to provide for the selection and sale of swamp lands, being the special order for 10 o'clock A. M., was taken up.

On motion of Mr. Trevitt, the Senate went into Committee of the Whole on the special order.

Mr. Cornelius in the chair.

Without transacting any business, the committee rose, asked and obtained leave to sit again.

On motion of Mr. Trevitt, S. B. 31 was made the special order for 3 o'clock P. M.

PETITIONS, MEMORIALS AND REMONSTRANCES

Mr Brown of Baker, presented the remonstrance of seven persons against the legislation in favor of taking water from the Tualatin river. Referred to the Committee on Commerce.

Mr Cornelius presented the petition of a number of citizens of Tillamook county, asking that the county of Tillamook be annexed to Yamhill county for legislative and judicial purposes. Referred to the Committee on Counties.

REPORTS OF STANDING COMMITTEES.

Mr. Baldwin, from the Judiciary Committee, reported back S. B. 64—To amend the General Laws relating to the assessment and collection of taxes, with a favorable recommendation.

Also, S. B. 51—For the protection and collection of the revenues of the State—without recommendation.

Also, S. B. 55—To prevent and punish conspiracies to break up the Legislative Assembly—without recommendation.

Mr Strahan, from the Judiciary Committee, reported back S. B. 49—Relating to the assessment and collection of taxes—with a recommendation that it do pass.

The bill was referred on motion of Mr Cornelius, to the Committee of the Whole.

Mr. Brown, of Baker, from the Committee on Commerce, reported back H. B. 26—to grant the right to the Tualatin Navigation Company to take water from the Tualatin river for a canal—with an amendment to the preamble providing for assessment and payment of damages, and a recommendation that the bill do pass. The amendment was adopted.

Mr. Crawford, from the Committee of Education, to whom was referred S. B. 62, to amend section 20 of the common school law, reported the bill with an amendment which was adopted.

Mr. Cochran, from the Committee on Railroads, to whom was referred S. B. 63—to amend the general law relating to private incorporations, reported the same back with an amendment, which was adopted. This bill was ordered engrossed.

Mr. Baldwin, from the Committee on Insane Asylum matters, made a report, stating that the committee could only in part comply with the instructions of the Senate to report the propositions submitted to the committee. The proposition of Dr. McCurdy had been withdrawn and the committee had not been able to regain possession. The propositions of Dr. Hawthorne and others were submitted.

Mr. Trevitt moved to postpone the consideration of the report till 11 A. M. to-morrow

Mr. Cornelius thought the best time to dispose of this matter is now. There is less business pressing now than there will be likely to be after to-day. This matter is an important one, and should be disposed of with deliberation.

Mr. Stout moved to make the report the special order 2 P. M. to-day, which prevailed.

RESOLUTION TO SHUT OFF NEW BUSINESS

Mr. Patterson offered a resolution providing that no new bills shall be introduced into the Senate after the adjournment to-morrow. Laid on the table.

ANOTHER BLAST AT JOHN CHINAMAN.

Mr. Strahan offered S. J. R. 18, reciting in several whereases the evils of immigration of Chinamen into Oregon, attributing the ills to which Caucasian flesh is heir, to the Burlingame treaty, etc., and resolving that our Senators be instructed and Representative in Congress be requested to procure the abrogation of the said Burlingame treaty with China.

Mr. Cochran moved that the resolution be adopted.

Mr. Cornelius moved that one hundred copies be printed.

Mr. Cochran withdrew his motion to adopt.

Mr. Fay opposed the motion to print for the want of time.

Mr. Cornelius thought there would be plenty of time to print, and as the people of this country do not seem to understand these Chinese treaties, he desired to have the "whereases" printed, at all events. He did care so much about the resolving clause.

Mr. Fay renewed the motion to adopt.

Mr. Cornelius moved as a substitute a motion to print.

After some discussion as to which motion should take precedence, Mr. Baldwin, in the chair, ruled that the motion to adopt had precedence.

Mr. Cornelius appealed from the decision of the chair, but the decision was sustained.

The question upon the adoption of the resolution being taken, the Yeas were 16 (all Democrats), and Nays 5 (all Republicans). So the resolution was adopted.

RELIEF WANTED

Mr. Burch presented certain papers in relation to the settlement of one Jesse B. Stump on school lands in Baker county, the payment by him to the School Land Commissioners of part of the value of such lands, the failure of such Commissioners to pay the same into the treasury, etc., and the petition of said Stump to have such moneys ($23 03 in currency and $5 00 in coin) refunded to him.

The petition and papers were subsequently referred, together with a bill for the relief of Stump, to the Committee on Education.

IMPROVEMENT OF THE WILLAMET RIVER.

Mr. Cochran offered S. J. R. 19, instructing our Congressional delegation to procure, if possible, an appropriation of $400,000 for the improvement of the Willamet river at Oregon City.

Mr. Trevitt moved to refer to a special committee, carried.

The President appointed Messrs. Trevitt, Cochran and Hendershott.

Mr. Trevitt offered S. J. R. 20, providing that the two Houses of the Legislature shall adjourn *sine die* at 10 A. M. on Saturday.

The resolution was lost—8 to 13.

RELIEF BILL.

Mr. Burch introduced S. B. 72, for the relief of Jesse B. Stump [To refund to him the amount above mentioned with interest] Read twice and referred to Committee on Education.

BILLS TO INCREASE THE SALARY OF SECRETARY OF STATE.

Mr. Brown, of Baker, introduced S. B. 73, to provide for clerical aid to the Secretary of State, [Notaries Public and Commissioners of Deeds to pay, each, $5 for their commissions. Twenty per cent of such moneys to go for printing and the balance to pay for clerical work of making out such commissions in Secretary's office.] Bill read twice and referred to Judiciary Committee.

Mr. Brown, of Baker, introduced S. B. 74, to provide for clerical aid to the Secretary of State [Gives the Secretary, for clerical aid, $2,000 per annum, and abolishes the section providing salary for Assistant Secretary of State] Read twice and referred to the Judiciary Committee.

AN EASEMENT OF THE STATE PRINTER.

Mr. Stout introduced S. B. 75—To amend the general law in relation to printing the Laws at the Seat of Government. [Allows the State Printer to publish the laws in a newspaper elsewhere than at the Seat of Government.] Bill read twice and referred to the Committee on Printing.

UMPQUA PILOT COMMISSIONERS.

Mr. Mosher introduced S. B. 76—To amend the Act to establish a Board of Pilot Commissioners for the Umpqua river. Read twice and referred to the Committee on Commerce.

The Senate adjourned till 2 P. M.

"SPALDING'S GLUE," handy and useful

A GRATEFUL ACKNOWLEDGMENT.—A. J. Charlott, a printer in the office of the Ohio *Weekly Clarion*, writes to the proprietors of the PLANTATION BITTERS as follows: "Three months ago I was the mere shadow of a man, and so debilitated that my limbs shook under me while at work. The compositor at the next case said to me one day, 'Andrew, you need a tonic; that's what's the matter; and there's no tonic that was ever got up equal to PLANTATION BITTERS. Try 'em.' I have tried 'em, and you are at liberty to state, referring to me for confirmation, that they have restored my health, and, I believe, saved my life."

SEA MOSS FARINE from pure Irish Moss, for Blanc Mange, Puddings, Custards, Creams, &c., &c. The cheapest, healthiest and most delicious food in the world.

THAT ENEMY OF MANKIND, Consumption! can be cured, but it is far better to prevent the cruel disease from fastening itself on the system, by the timely use of a remedy such as DR. WISTAR'S BALSAM OF WILD CHERRY affords.

Let us Discuss the Great Question.
What is the most important of all earthly blessings, in the estimation of every intelligent human being?
Clearly, it is Health; for soundness of body and mind is essential to the enjoyment of all the other good gifts of Providence.
How, then, shall those who possess this inestimable treasure endeavor to preserve it, and how shall those who have lost it seek to recover it?
These questions have been asked in all ages, but never have they been as satisfactorily responded to as at the present day, and the answers which common sense, enlightened by science and experience, gives to them in the Nineteenth Century may be briefly stated thus:
To protect the system against all influences that tend to generate disease, there is nothing like invigoration.
To re-establish the health on a firm basis, when it has been lost by imprudence or any other cause, the system must be simultaneously strengthened, regulated and purified.
Those ends can only be attained through the agency of a preparation which combines the attributes of a tonic, a corrective, a blood depurent and an aperient.
All these essentials are effectually blended in Hostetter's Stomach Bitters. They contain nothing drastic, irritating or inflammatory. The juices and extracts of sanative herbs, roots and barks are their sole medicinal ingredients, and these are rendered diffusible by combination with the spirituous essence of rye, the purest of all alcoholic stimulants.
The weak and feeble, and especially those suffering from biliousness, indigestion and nervousness, absolutely require the renovating aid of this powerful tonic and alterative during the heated term, and cannot prudently postpone its use for a single day. A word to the wise is sufficient.

Gambetta at Tours

[illegible]

[illegible] Gambetta has issued a proclamation to the people of the Departments outside of Paris. He says:

By order of the Republican Government I have left Paris to transmit to you th[illegible]

HOPE [illegible] THE PARISIANS

And the [illegible] of those who are seeking to deliver France from foreigners. Paris invested for seventeen days [illegible] of two millions of men forgetting their differences to withstand the invader, who expected civil discord. The [illegible] found Paris without guns or [illegible] of any kind. Four hundred thousand of the National Guard are now armed and one hundred thousand Mobiles and sixty thousand regulars are assembled. The foundries are casting cannon. Women make millions of cartridges daily. Every battalion of the Nationals have two mitrailleuses and field pieces and are preparing for sorties.

THE FORTS

Are manned by marines and are supplied with artillery of the greatest excellence, which are served by gunners the first in the world. Hitherto their fire has kept the enemy from erecting the smallest work. The *enceinte* on the 4th instant, had only 500 cannon; now it has 3,000, with 400 rounds for each. Every defense has its men at their posts. The Nationals drill constantly behind the *enceinte* on the third line of defense—barricades, which are adopted by the genius of the Parisians. This has all been achieved calmly and orderly amid the general patriotism.

The impregnability of Paris is no illusion. It cannot be captured or surprised, and there is no danger of sedition or starvation, which the Prussians have been counting on.

The situation imposes [illegible] at duties. First of all it is for you to cease to be diverted by any preoccupation which may not be "*combat à outrance*." The second is, until peace comes to accept fraternally the authority of the Republic, a power proceeding from necessity and right, and a power which would not exist a moment were it exercised for profit or any ambition.

THERE IS BUT ONE PASSION, BUT ONE THOUGHT

To rescue France from the abyss into which monarchy had plunged her. This task is the Republic's, which has been well founded and which affords no shelter to conspirators and reactionists. So, therefore, I have to demand of you abandoning other affairs, and without taking account of the difficulties and obstacles which are to be overcome, to co-operate with all your unrestrained energies in remedying the evils of the situation. The time is short in which to supply the actual force which it has lost by delay. Men are not wanting.

DELAY IT IS WHICH HAS WROUGHT DEFEAT

Now come resolution and decision, and it is in the execution of these projects that the Republic makes an appeal to the confederation of all. This Government takes upon itself the duty of utilizing all your courage, of employing all your capacity. It is a tradition to arm our young leaders. The National defence Committee are straining every nerve to arouse the country to its peril. Agents are abroad in all the armories of the world, and arms are being obtained from all the gun factories of Europe and America, but in the midst of this activity the distant provinces, unsullied by the foot of the invader, have abandoned themselves to torpor. But this lethargy shall be shaken off: a great country will rise majestic in her might and inaugurate a national war. The Autumn rains and chilling blasts will give immense trouble to the unacclimated Prussians, who will be decimated by hunger and will fall an easy prey to the exigencies of nature, and their task of subjugation will prove a hard one to accomplish. A great nation of freemen cannot relinquish her place in the world simply on account of a foreign invasion. 500,000 men are massed within the walls of Paris, who would rise and seek death rather than submit to the dismemberment of their beloved land.

IT IS NOT POSSIBLE THAT THE GENIUS OF FRANCE SHALL BE CLOUDED FOREVER

That a great section will allow itself to fade away under the domination of 500,000 men. Let us then rise up *en masse* and let us die rather than submit disgracefully to dismemberment. Through all our disasters, and under the stroke of ill fortune, there remains for us the settlement of the unity of France and the indivisibility of the Republic. Paris asserts again, and most gloriously, that immortal motto which calls upon all France: *Vive la nation! Vive la Republique indivisible.*

English Neutrality.

THE PROTEST OF PRUSSIA—COUNT BERNSTOFF'S REPLY TO EARL GRANVILLE.

NEW YORK, October 9.—The *Tribune's* special from London says the controversy between Prussia and England in regard to the violation of her neutrality by exporting arms to France, is growing more and more seriously. Bernstoff's delay in replying to Earl Granville's last communication created the belief that Prussia had abandoned the discussion.

A second dispatch sent to the Foreign Office to-day explains that the delay was due to the hope of peace, which now disappears. It reviews the whole question at great length, and points out how the English Government has shifted its ground. First furnishing proof of the alleged supplies to France when the proof was furnished Granville declared the traffic legitimate—that the customs authorities had no power to stop it, and imputing to Prussia a desire for benevolent neutrality from England.

Bernstoff denies intimating such a desire, and reminds Granville that he expressed on the one hand his satisfaction that the English public was on the side of Prussia, and on the other his regret that this opinion had no greater influence on the Government. He says: "I have not asked England to transgress her neutrality in favor of Prussia, but to maintain that neutrality, which, while intended to be impartial, becomes, in its practical effects a neutrality benevolent and partial toward France, permitting French agents to buy up in this country under the eyes and with the cognizance of the British Government great quantities of arms and ammunition. A swarm of testimony proves that 15,000 stands of arms have been exported to France since September 30th, and a number of manufactories, especially at Birmingham and London are working day and night for French agents. I possess authentic copies of the contracts between the French Government and English houses, and proofs that the export of arms and ammunition is throughly organized at several British ports. The British Government admits it has the power to stop this export, but I insist that the [illegible] is not to exercise power except in English interests.

Two examples are given to prove the contrary: first, Wellington's letter to Canning in 1825, saying that England's usual practice was to prohibit such export, and that not prohibiting it is a breach of neutrality; and second, the orders issued in 1868 to the customs authorities to prevent the exportation of arms to use against Denmark. [illegible] contribution to this order issued by the same authorities on the 5th ultimo, [illegible] of delay in the shipment of arms and ammunition, Granville further alleges the difficulties against effectively supervising such export, but admits that such regulations already exist. The French complain that Prussia during the Crimean war allowed the transport of arms. The complaints then made are now renewed, but at that time they were shown to have been unfounded. Refuting various other suggestions of Earl Granville, Bernstoff concludes:

As for the hope expressed by your Excellency, that the German people will in a cooler moment judge less severely the attitude of the British Government, I regret that after your Excellency's note of the 1[illegible]th ultimo it has been added to our knowledge that our enemy is being daily supplied with British arms. I cannot, therefore share such hope, and can only trust that the known sympathy of the English people may produce a change for the better."

German Official Statements

LONDON, Sept. 28.—The *Tribune* correspondent, writing from Berlin, 26th, says the official statement of German captures thus far not including [illegible] from the 2d of August, on which day Saarbruck was temporarily abandoned by the Prussians, are as follows: At Saarbruck the French lost [illegible] officers and 67 privates. At Weissenburg [illegible] officers and 1,000 men were made prisoners, [illegible] [illegible] [illegible] of all kind were captured. At Worth the Germans took 6,000 prisoners, besides 130 officers, and took 2 eagles, 6 mitrailleuses, 35 guns, [illegible] wagons and carriages, 200 horses, the baggage and camp tents of two divisions and two railroad trains with provisions. The same [illegible] the French loss at Spicheren and during the days following these battles in engagements at Kerchish [illegible] and Sarguemines [illegible] prisoners [illegible] at [illegible] a train at [illegible] encampment [illegible] containing 10,000 [illegible] [illegible] 140,000 rations of rice, coffee and sugar, also large quantities of wine, [illegible] [illegible] [illegible] mounting [illegible] [illegible] The fortresses surrender during the first of August increased these figures as follows: At Haguenau 4 officers, 103 privates, [illegible] horses and a large supply of arms. At Lichtenburg 30 officers, 280 privates, 7 guns, 200 muskets, 30,000 cartridges, powder, etc. At Lutzelstein Petite Pierre large quantities of arms and ammunition. The three days of fighting at Metz do not show such large captures in men and material, because the enemy were enabled to save both [illegible] the guns of the fortress still at Thionville. The French lost in prisoners [illegible] officers and 300 privates; at Gravelotte 3[illegible] officers and 300 men. The losses in killed and wounded during the three days were 25,000. With the fortress of Vitry le Francais seventeen officers, 850 privates and sixteen guns were captured. The engagements and battles at Nouart, Beaumont and Sedan, previous to the capitulation at the latter place, resulted in taking of about 30,000 prisoners, besides several eagles and a large number of guns. Beaumont alone cost the French 7,000 prisoners, 2 eagles, 11 mitrailleuses, 23 guns and a tent camp, and Sedan previous to the capitulation 25 guns, 2 eagles and nearly 25,000 prisoners. Sedan gave the victors one marshal of the Empire, [illegible] Generals, 2[illegible] officers of [illegible] [illegible] [illegible] and 84,[illegible] prisoners. Besides 14,000 wounded, all the eagles of the regiments were taken, 70 mitrailleuses, 430 field guns, 150 fortress guns, and 10,000 horses were captured. At Laon the loss is not yet reported, but will include 2[illegible] guns and many muskets. Add [illegible] before reported, and the total will be one marshal, 4[illegible] Generals, 4,300 officers, 106,950 privates, 10,280 horses, at least 56 eagles, 102 mitrailleuses, 889 field and fortress guns, over 400 wagons and trains, magazines, railroad trains with an incalculable quantity of supplies in arms, ammunition, clothing, equipments, forage and provisions.

The New York [illegible] in stating that that city has an academy where barbers are educated, says there are thousands of academies for the education of little shavers all over the land.

New sewing machine factories are said to be springing up all over Connecticut.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his special study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted with these [illegible] are interested in the welfare of their friends to be careful of the many pretenders to whose infectious pollutions, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequences of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noises like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. G. [illegible], stating the symptoms [illegible] [illegible] [illegible] [illegible] [illegible] and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. Ten Dollars sent in registered letter or through Wells Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus and [illegible] certificates dupe the unwary. Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy to work at their trades. Some are blacksmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets, for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting gratitous certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial (Private Entrance on Commercial) San Francisco. Post Office Box 952.

REMEMBER TO PUT BOX 952 ON THE LETTER.

Consultation FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

Ordinance No. 870

AN ORDINANCE ADOPTING THE REPORT OF [illegible] Viewers in the matter of the opening and extension of certain streets in Caruther's Addition to the City of Portland.

Whereas, The Common Council of the City of Portland [illegible] [illegible] for the extension [illegible] opening and establishing of certain streets in that part of the city [illegible] [illegible] [illegible] land claim of F. Caruthers [illegible] [illegible] [illegible] [illegible] March 18[illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] as Williams [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] Fourth [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] the opening and extension of certain streets, and whereas after [illegible] [illegible] the [illegible] day of July, 1870, the Common Council [illegible] J. K. Kelly, E. D. Shattuck and J. M. Ritchey viewers [illegible] [illegible] and extension [illegible] [illegible] [illegible] [illegible] 20th day of July, 1870 [illegible] [illegible] [illegible] was given by publication in the Daily [illegible], a newspaper of general circulation in the [illegible] [illegible].

Whereas said Viewers [illegible] the [illegible] and [illegible] [illegible] [illegible] their report [illegible] [illegible] [illegible] made [illegible] [illegible] and [illegible] [illegible] [illegible] [illegible] [illegible] therefore:

The City of Portland does ordain as follows:

Section 1. The report of J. K. Kelly, E. D. Shattuck and J. M. Ritchey, viewers of the extension [illegible] [illegible] [illegible] certain streets in that part of the city [illegible] within the boundaries of the land claim of F. Caruthers, [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] extending [illegible] [illegible] [illegible] [illegible] [illegible] that part of [illegible] street [illegible] [illegible] lies south of [illegible] south line of Hooker street, and those parts of Meade and Hooker streets [illegible] west of South Third street and that part of Porter street which lies west of South Second street, which said report reads as follows:

To the Honorable the Common Council of the City of Portland:

The undersigned, appointed viewers of certain streets in that part of the city of Portland in the land claim of F. Caruthers, deceased, pursuant to Ordinance No. 791, and notice published in the Daily [illegible] under date of July 9, 1870, respectfully report:

That they met at the office of the City Clerk and Auditor in [illegible] with said notice on the 25th day of July, 1870, at 10 o'clock A. M., and were then and there sworn [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] July, at 10 o'clock A. M., at which time they met again [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] adjourned to said [illegible] and adjourned again to the 27th July [illegible] at [illegible] o'clock P. M., at which time they met and having [illegible] [illegible] [illegible] [illegible] [illegible] and duly [illegible] the matter submitted and [illegible] [illegible] said [illegible] and proceeding, they do assess, determine and declare that none of the lands or premises through or over which the proposed streets [illegible] [illegible] [illegible] [illegible] [illegible] to be extended will be rendered of any less value [illegible] by the opening and extension of said several streets, according to the provisions and provisions of said ordinance [illegible] [illegible].

The said Viewers do further estimate and assess and [illegible] [illegible] that none of the owners of [illegible] persons interested in the lands of which a portion is to be appropriated for said [illegible] will derive any benefits or advantages in [illegible] [illegible] [illegible] [illegible] damages sustained by the laying out, opening, [illegible] extension of said streets in said ordinance [illegible] [illegible] [illegible].

And said Viewers further assess, estimate and declare that the benefits and advantages of said streets respectively in said ordinance and notice mentioned to [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] who own or are interested in lands within one hundred feet of said proposed extension will be of no appreciable value, and said Viewers award and declare as to the appropriation of each and every of the said tracts and parcels in said notice described and necessary to be appropriated, that no damages will be sustained by said appropriation to the owners of property taken, and no benefits will [illegible] [illegible] [illegible] to the [illegible] [illegible] whose land is not taken.

All which is respectfully submitted.

Ordinance No. 864.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving Taylor street from First to Seventh street.

The City of Portland does ordain as follows:

Section 1. The proposed improvement of that part of Taylor street lying between the west line of First street and the east line of Seventh street shall be completed in the manner hereinafter provided on or before the first day of November, 1870.

Section 2. The surface of the street shall be cleared of all plank, timbers or other obstacles or perishable materials (sidewalks, crosswalks and plank roadways of the proper width and grade excepted). If the obstructions are not removed by the owners of the adjacent lots within three days from the service of notice by the Street Commissioner, they shall be removed by and become the property of the contractor.

Section 3. The improvement shall consist of grading, laying sidewalks, crosswalks, plank gutters and a plank roadway sixteen feet in width, the plank roadway to extend only to the crosswalks on the east side of Seventh street.

Section 4. The work to be done and materials furnished shall correspond with the provisions of and under the restrictions named in Sections 7, 8, 9, 10, 11 and 1[illegible] of Ordinance No. [illegible]3, entitled "An Ordinance in relation to the improvement of streets."

Section 5. The Contractor shall take entire charge of the work during its progress and shall be responsible for any loss [illegible] [illegible] occasioned by carelessness or neglect.

Section 6. The Committee on Streets and Public Property are hereby authorized to advertise for proposals, receive bids and enter into contract with the lowest responsible bidder or bidders for the improvement specified in this ordinance.

Section 7. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Street Commissioner.

Passed the Common Council September 21, 1870.

THE RIVERSIDE
HOMESTEAD ASSOCIATION!

OF

EAST PORTLAND, OREGON,

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock.

Application for ONE HUNDRED SHARES was made before the books were opened and a large number of Shares have been taken.

The following extracts from the *Oregonian* and *Bulletin* will give a good idea of the plan and workings of the Association, the location of the land, etc., etc.

RIVERSIDE HOMESTEAD ASSOCIATION.

This association, of whose organization we gave an account a few days since, is now ready to dispose of shares. As it is, with one exception, (the Portland Homestead Association,) the pioneer organization of that kind in this city, it may be well enough to state what are its purposes, and the manner in which it is proposed to conduct its operations. The purposes of these Homestead Associations are not at all speculative in the ordinary sense of the word. They are dependent for the profits of their investment upon the natural advance in the value of their lands, consequent upon the co-operation of many individual shareholders, and the advance on values of all surrounding lands by reason of the expansion of population and demand for room outside of, but still near the city. The Riverside Homestead Association has a fraction over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river, the nearest boundary line being about one mile from the ferry landing at East Portland. The tract lies in one strip along the Wallamet river, half a mile in length, and another strip along the Oregon and California railroad, half a mile in length, the two strips being connected near the middle by two rows of blocks (with a street between them,) the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square (with streets running at right angles) and 80 fractional lots, along the river front. The shares number 600, worth $60 per share. It will be seen that a share thus represents nearly a lot, with an undivided interest in the 80 fractional lots. The 80 fractional shares are to be sold off at the proper time for the benefit of the Association, [illegible] [illegible] coming in for the proceeds in proportion to the number of shares held. When all shares are taken and the Association shall determine to do [illegible] it, the choice of lots and blocks will be put up at auction to the highest bidder, the proceeds of such sales, after [illegible] the original price of shares or lots, to be divided equally among the whole number of shares. Thus, if a person wants a particular lot or block, and is willing to pay $100 or $500 pr [illegible] (more or less as the case may be) he pays it and takes the lot or block as his individual property, the premium being divided among the whole number of shareholders. It will be seen, therefore, that everything is co-operative, and all [illegible] [illegible] [illegible]. No man can make a dollar out of it without also making a dollar for every other equal shareholder. There is no chance for loss, unless the property, by some chance, should [illegible] far below the first actual cost. Whether this is liable to happen in the case of this particular tract of land must be judged by each for himself, but considering the steady and [illegible] [illegible] advance on real estate in this city and neighborhood and at East Portland and vicinity, for the last year or two, it seems hardly possible for values to go back.

In the Riverside Association all proper precautions seem to have been taken to guard against monopolies of shares. No person is [illegible] to buy more than the number of shares [illegible] three blocks, or twenty four lots, and voting, determining the operations of the Association are restricted in the same manner. The buyers of shares may pay down $60 per share, which will exempt them from all [illegible], or they may pay $15 quarterly with an [illegible] of $3 per share, payable with the first installment, being liable in this latter case to another (and only one other) assessment of $3 per share. Upon the payment of the shares in full, with the [illegible] as above, the holder is entitled to his certificate and his proportion of all the profits accrued from all sources. No officer of the Association receives any pay for services except the Secretary, who gets $25 per month, so it will be seen that the expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, about 60 to 80 feet above the water. There is no part of the front row of blocks but commands a splendid view of Portland and the river for miles up and down stream. That part of the tract lying along the railroad is, every foot of it, of the richest loam soil and adapted to gardening purposes. A beautiful little stream of pure water runs through almost the entire length of this wing of the tract, affording the means of irrigation, and power sufficient to supply pure water to every part of the whole tract. There is not a waste lot or fractional lot in the entire tract. Under all these advantages it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder, if he chooses, may get a perfect title to as many lots as his shares may represent, or he may continue his interest undivided, with the Association while the organization may exist.—*Oregonian.*

THE RIVERSIDE HOMESTEAD ASSOCIATION.

We have been led to make these remarks from the fact that the subject of making homesteads on the outskirts of this city and East Portland, is being thoroughly discussed here among all classes, and one homestead—the Riverside—just south of East Portland—has already been established. The site selected is a tract of land lying a little over a mile south of the ferry landing. It is shaped like the letter H, one side of which, a half mile in length, is [illegible] on the river.

From this portion of the homestead, which is elevated but a trifle above the other prong of the H, but is at forty or fifty feet above the river, can be had an extensive view of Portland, East Portland, the shipping, and the Wallamette river for several miles. The land is very fertile and is partly covered with light fir timber. A tract of land just wide enough for two rows of blocks, with an avenue between them, connects the west prong of the H, which has already been described, with that on the east. This last tract of land is in a beautiful little valley, which is now under a high state of cultivation. Through its whole length runs a trout brook, the water of which is clear as crystal. With a hydraulic ram the Association could [illegible] have water conveyed through pipes to every portion of the homestead.—*Daily Bulletin.*
